1. Claims 1-12 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: An alarm device adapted for pick-proofing a lock member, where the alarm device comprises significant structure. In addition, an alarm circuit is inhibited from generating the alarm output when a first contact member detects removal of an alarm actuator from a through hole in a base plate. Moreover, the prior art indicates that this particular device is novel and has not been published or patented by other entities.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
